

Instructions for Exporting QuickBooks data

Where did my worksheet go?

When you export data to a new workbook, your new worksheet containing exported data goes to SheetX. The new worksheet is placed in front of the last active sheet where it will be named "SheetX" using the last active sheet's name.

How do I make sure this tips sheet isn't exported with the QuickBooks report in the final workbook?

Before exporting, on the Export Report Basic tab, deselect the option to include the instruction worksheet.

How can I customize and update my worksheet?

You can set up Excel links between 2 or more worksheets. (See Microsoft Excel Help for details about the feature to setup links between a QuickBooks summary report and your customized sheet.

- >> *Choose one sheet as your source worksheet into which you'll export QuickBooks data. Then customize your data and link the data between that sheet and the source worksheet.*
- >> *Export your source data to an existing worksheet and overwrite the current data so that the new data is the source.*
- >> *Create Excel links between a QuickBooks data worksheet and another worksheet in the workbook.*

Troubleshooting: Why don't my links work correctly after exporting data?

Be aware that any difference in the structure of the current report from the report that you used when you created the links between worksheets. If you are seeing wrong data in your customized worksheet, then you might have changed the structure of the report in some way.

- >> *Moved or deleted elements, or changed the structure of the report in some way? For example, if you moved or deleted items from the item list which gets used in a report, the report will not work correctly.*
 - You might have moved or deleted items from item list which gets used in a report.
 - You might have moved or deleted accounts from accounts list which gets used in a report.
- >> *You are using a report related to accounts and have account(s) with no activity associated with it.*
 - TIP: Choose display All rows (available for most of the reports), Select Modify.
- >> *Deleted exported data sheet which serves as data source.*
